

## Readiness to Witness- *Before the Conversation*

### **Introduction**

Welcome, brother or sister, to the first subject of our witnessing course! For this course, our focus will be on being ready to witness before we go start a conversation with someone. We will not focus much on the Biblical importance of witnessing because it is assumed that the people in this course understand this already.

This is probably one of the more important courses as much of the proceeding 6 subjects will be very depended on this step. Majority of the people, however, will not go beyond this step and will not witness as they might not be “ready enough”. My personal goal is that after this course we will be first, striving to be closer to Jesus and second to be encouraged to share the gospel with others. As you study the material provided to you, please analyze your heart and ask the Lord to help you understand and fulfill these truths in your life.

God bless you on your study!
